BiMPay

Two Easy Ways to Access BiMPay

OPTION 1

Through Your Bank or Credit Union

If you have an account with a commercial bank or one of the three largest credit unions (BPWCCUL, COB, Affinity Plus), when you send or receive money through their online or mobile banking, those transactions will be powered by BiMPay.

OPTION 2

BiMPay E-Wallet

You can use the BiMPay e-wallet if:

- You don't have a bank account
- Your credit union is not yet connected to BiMPay
- You have an account but want to use the e-wallet anyway

How It Works (E-Wallet)

1. **Download the BiMPay E-Wallet from the App Store or Google Play Store.**
   The wallet will be linked to your phone number, email address, and device.

2. **Register Your Wallet – Two Options.**
   Provide your name, email address, and mobile number.
   If you want to link your wallet to your account, choose that option. If you don't want to, or if you don't have an account (or your credit union is not connected to BiMPay) choose the option to select a custodian.

3. **Simplified Due Diligence (Confirm You're Who You Say You Are).**
   Provide some basic additional information
   - Your address
   - Your national registration number
   - An image of your national photo ID
   - You should receive confirmation within 30 minutes

   **If the custodian needs more information, it will prompt you what to do next.*

4. **Using Your E-Wallet.**
   Once your wallet is set up, you can begin receiving payments, and as soon as there's money in your wallet, you can start making payments, too. You can also:
   - Ask a trusted friend or family member to transfer money to your wallet to get started
   - Cash out by transferring funds to someone who can give you cash
